Women's Work and Wages. Women's Work and Wages.
The London Weekly Times easy that the
young milliners and dressmakers of that city
are condemned to sixteen or eighteen hours of
toil out of the tacaty-four in each day and
night. Their work is carried on in growded,
naventlated rooms, where their frames are
kept bent at their labor until the layer whe
and their finish rolute to perform their layer. whe
and their finish rolute to perform their layer
yeards. In a record typecth, bed lasteshury
said that many of these young women had been
trained in delicacy and huppy homes, presesing all the virtues and tenderness that belong
to the female sex, and rendered by those very
characteristics more obestion, more unmornaring, more slavishly subject to the authority ing, more clavishly subject to the authority and tyrauny of those who are put over them.

This is all wrong, bateful, intolerable.-But how much better is the condition of hundreds and thousands of young women, and those of middle life, in our great cities, wives and daughters of the infirm, the intemperate, or the lowly poor, and often widows with little ones-who are compelled to work all day and half the night at sewing, for the wretched pittanes of one or two dollars per week? Ay, and this too, when rent, food, clothing and fuel, are all depend ent upon their exertions, and twice as much money would hardly make them comfortable, though invested with the atmost care and best economy.

And, as if this were not trial enough for these hapless ones, a hard and unfeeling employer will often conly receive from their hands, on Saturday, the work they have been all the week engaged on, and tell them he has paid out all the money he had, and they will have to wait till next pay-daywhen perhaps they were depending on his penetuality for the means of procuring the very next meal. Men are seldom turned off in this way; why should women be?

Men and brethren! these things ough not so to be. There should be, in the first place, no such shameful disparity between the wages of equally skillful, dilligent and faithful workers. If a woman performs as much work as a man, and dees it equally well,-by what rule of equity or decency is she turned off with twelve skillings per week, while her brother receives from nine to twelve dollars ?-- and the difference is

often much greater.

Do not wence need the band and shelter, the same as the Do landlerds charge them covered for one-sixth as much rest as others? Are the dealers in fuel, provisions and other necessaries of life, so considerate as to supply their wants 75 to 80 per cent, lower than they do other prople's? Do railroads, steamboats and other public conveyances above their rates of fare in any such proportion in favor of women? No. Why then should female industry be thus tradden under foot?

----PROVIDENCE CONFERENCE SEMINARY .--The new addice just completed for this icetitution, at East Greenwich, will be appropriately dedicated to-morrow. The Annual examination of the pupils will take place to-day and on Weiinesday a public Exhibition. The exercises will commence at 11 A. M., and will consist of Dedicatory Poem by His Honor Wm. M. Rodman, Mayor of Providence, Remarks are expected from his Excellency, Elisha Dyer, Governor of Rhade Island, and from John Kingsbury L. L. D., Commissioner of Public Schools for the State. A public dinner will be held immediately after the close of the exercises, at the Updike Hotel-An Address will be delivered by the Rev-Bishop Clark, D. D., of Providence, Tuesday, at 8 o'clock, P. M., before the Young Ludies' Literary Society.

MIRROR OF ITALY,-We copy the follow ing from the Providence Journal, in relation to Waugh's Mirror of Italy, recently exhibited in that city:

It is Goot,—Major Felch, has exhibited his Mirror of Italy both last evening as well as Saturday to excellent houses. It is certainly beautiful beyond description and should be seen by all. It more than fitts public expectation. In fact we have never seen audiences better pleased. It is the best thing of the kind ever tabilited is our city. More Kelch was insuly feel around of city. Major Felch may justly feel proud of such a splendid entertainment, and the manner in which it is conducted does him great credit. As a panoraxie delineator we have never heard his equal, he is easy in his manner and his voice is clear and distinet, his lecture is a brilliant production, while the good order maintained places the whole entertainment for above anything of the kind we have ever seen. The concluding performance by Signor Matello and his fanny family is not only chosen by his his family family is not only chaste but highly amusing and fills all with wonder and

LOCAL NEWS.

A RIGHT STEP IN THE RIGHT DIRECtton.---We notice by the Providence papers, that the military of that city have undertaken the work of celebrating the coming anniversary of Independence in an independent way-that is, without an appropriation from the city, and for this purpose are soliciting pecuniary contributions from the citizens. This, we doubt not, will prove more satisfactory, in many respects, than if the celebration were planned, carried out and paid for by the Car Authorities, and the citizens taxed for the amount it cost .--There is a degree of independence in a man determining for biroselt the amount he shall pay for a public celebration, and, as remarked by the doucnal, it will in most instances exceed the ratio of his taxation four to ten fuld.

There is always more or less humbing mixed up with Municipal celebrations; for instance, a good share of the appropriation is devoted to the preparation of a sumptuous dinner for the City Authorities and their particular friends and cronies, which the people-those who are taxed to pay for : it-have no participation in it whatever. Hence it is that a thousand dollars entrusted to a committee of citizens, will go further toward securing a good celebration, than two thousand in the hands of the City Authorities

If two or three energetic men, men whom the citizens had confidence in, had under taken one week or two weeks ago to provide a celebration of the Fourth in Newport, a sufficient amount could have been raised by contribution among the citizens to have put the city in the front rank of those celebrating the coming anniversary.

FACILITIES OF TRAVEL TO AND PROM NEWPORT.—The summer arrangement of the steamer Perry, advertised in our colmans, opens the facilities for travel to and from this city to a very gratifying extent, which, with the New Clifton and the New York steamers, puts us in direct daily cantmunication with a large extent of country.

Taking the Perry here in the morning at 5 o'clock, passengers can go to Providence Boston, Worcester, Taunton or New Bedford, and return the same day. They can also go up in the Perry in the afternoon at 2 o'clock and return at night, leaving Providence at a quarter past 6.

Taking the New Clifton at 2 o'clock, passengers reach Bristol at a quarter past 3 o'clock, and Fall River at about 4, returning by the New York boat which leaves Fall River at about a quarter past 7. On Mondays, Wednesdays and Fridays, passengers can leave Bristol for Newport per steamer Governor at about half past 6,

The arrangements for travel to New York are too well established and known to need.

Mr. Charles L. Stanhope has recently purchased the estate in John street belonging to Mr. William Fludder, for \$3200.— It is a beautiful place, and we hope Charles

The intelligence contained in the closing paragraph of the above extract was solicited for this paper more than two weeks ago, and refused, on the ground of its being a "private matter." MR. EDITOR :- A singular statement from a writer in Texas, has recently hern published in some of the papers. It is to the purport that in a large extent of territory in that State, where the deer feed and and range in great numbers, it is impossi- her delicate body." tory in that State, where the deer feed and ble to find a single untler of all the vast number which these animals shed every If this strange story is true, the dec either has very different habits in the various portions of the earth where it is found, or those in the South find a use for their disparded horas which their brethren in the far north have not. Possibly they have a method of concealing them in the yielding soil or amid the luxuriant vegetation of the tropical regions which those cannot avail themselves of whose home is on the frozen and treeless soil around the north pole.

Dr. Kane, in his "Arctic Explorations, (vol. 2, pp. 49, 50,) speaking of the deer which were occasionally seen at the winter quarters of the Advance, states that "where they have been gathered together year after year, the accumulation of discarded antlers is immease. They tell me at Halsteinberg . that on the favorite hunting grounds these homs are found in vast piles."

Antlers are often found in the forests of our Northern States, and it is a curious question why there are none on the prairies or in the woods of such a game country as Texas.

U. S. schooner Guthrie, a light-house supply vessel, ancher red in the harbor yea-terdey. By invitation of her commonder, Capt. Springer, we went to a board and took tea with him last evening. The Guthrie is a fine vessel, rated at 130 tons, and carries ten men, all told. Her captain is a fine apecimen of the American sailor-frank, generous and manly, and appears to regard his gallant craft with a degree of affection next to that for his wife.

BAPTISM .- Rev. Mr. Clark of Middle town, baptized thirteen persons by immer-sion at the Glen, yesterday.

THE CRUISE OF THE ARCTIC .- The cruise of the little old Arctic has turned out as we expected it would. She was sent to the Gult, it will be remembered, to "blow the British fleet out of water" (with two guns and a howitzer.) The first day out, she made three miles an hour. The third day out, she rolled so heavily that a corporal's guard of marines had to hold the hawiter to keep it from pitching overboard. On the seventh day, she broke her engine. On the eighth, she spring aleak. On the latth, egino, one spring meas. On me math, set all hands at the pumps. Succeeded stopping the leak, she crept on toward Havana at canal-hoat speed—two and a half miles an hour. Steakh not see the -didn't se the Styx-didn't see anything in fact, except when some merchant overtook and sailed past her. Final then overtook and sales pay her. Finally, after a voyage of eighteen days (more than it takes to go to Europe,) she reached Bayana. Then it was found that her bollers were out of order, and she started back. to Key West for repairs. It is hardly necessary to add that she did not "blow the British fleet out of water."—Albany Eccning Journal.

Beinging an Obstenate Juror to his SENSES.-The Santa Craz Sentinel gives the following account of a method adopted recently in its town to overcome the objections of an obstinate juror .

"Persuasion and storvation are the anachieving common law methods of achieving the above result; but a novel method was ately tried in this town. By some means n fellow juror, an utter stranger to all his brother jurors, was placed upon the Jury, who dissented from the verdict agreed to by the other eleven. They came to a joint conclusion of guilty without delay, but the stranger pertinaciously held out against them. After an hour's argument, with no avail, it was at last proposed that the Jury should return a verdiet of 'guilty by eleven jurymen, who believed the other one to be a confederate of the prisoner, and as great a rescal." This ended it; stranger saw twenty Vigilance Committees in his mind's eye, and in five minutes the Jury unaninously returned a verdict of guilty

WHAT THE GIRLS NEED .- Mrs. Ellis thus hits the deficiencies of English girls in household knowledge. The cap will fit our American young laules, except that some of the latter have plenty of "frankness," and do not think it worth while even to show mock modes y :"

"The truth is, my dear girls, you want, generally speaking more liberty and less fashionable restraint; more kiteren and less parlor; more leg exercise and less sola; more making puddings and less piano; more frankness and less mock-madusty; more breaklast and less bustle," : .

SAICORS POISONED BY AFRICAN NATITES, The barque Benj. Joukhn, which arrived at Phil River on the 19th just, last from Coast of Africa, returned in consequence of the leaky state of the vessel, and Captain Brown being sick with fever and ague. She lost four men by being poisoned by the na-tives on the Coast of Arrica, about the first of January last. The plannes were Welcome Clark of Fall River; Frank M. Hathaway of Freetown ; and two Portuguese.

PROV. O. J. WDOD—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty in you and the allicted, to report it.

Our little son's headtor some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing hid sufferings, advised to to use your Restorative, we did so with little hope of success, but, to some superiors, and that of all our friends, a very few applications removed the discrete chirdly, and a new and havaitant trop of his corn started out, and we can now say that our boy has as healthy a stalp, and ashwariant a crop of hair as any other child. We can therefore, and do bereby recommend your Restorative, as a perfect to easy for all listenses of the ready and halt.

We are, your respectfulty.

SPANISH GOLDEN MIXTURE.

THIS clegant vegetable compound has the been used by the Spanish boiles, for real atting the derangements of the female tystem and for improving the general health and beautifying the complexion. It is a warming stimulating and tonic cerdial; enriching and parifying the bland, queckening the circulation, imparting color to the lips and checks, orilliancy to the eyes, and a cleaness and fre ness to the complexion not attainable by any other means.

If As a Fenale Medicine it has no equal, it will remove female obstructions when all other remedies have failed, and a few doses taken for one week before the nonthly period will prevent allobstructions from any catac whatever. This may seem incredible, but try U. If it fail in any case the price will be refunded. Seat to any part of the country. Price 33 of per battle.

LOTTERIES.—The Lotteries of Samuel Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner.—They offer to the public a fair opportunity for investment, the interests of parties at a disstance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders to crived being filled in the drawing next to take place after the same comes to hand. According to the scheme one tickets are \$10; halves, \$5; quarters, \$2.50. No tickets sent unless the money accompanies the order. The drawings are up in the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no continuation of numbers to mistify the buyer. INTERIES.—The well known Mary Lind Consolidated Lotteries, of which R France & Co. are the managers, are chattered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that ercrything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the manages cell attention to, is, that all persons have a ligal right to send orders for tickets to Maryland, as hotteries are legalized by special law in that state. A lottery is drawn every day in the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes hand. The prices of tickets vary from \$1,000 to \$20.—No tickets however, sent unless the mormoney for the same is received with the order. The drawings are upon the principle of one mumber on each ticket (after the Havan plan), and Ternary combination. Prizes vary in amount from \$20 to 1000,000.
